

CARRYFIX®

NEW!

CARRYFIX® NEW PATENTED SKI-CARRYING DEVICE

carryFIX® is a unique and patented ski equipment combining the functions of both a fixing tool and an easy-to-use and convenient device to carry skis, integrated into a single product. The usual way to carry skis over the shoulder is not only tedious and exhausting, it also endangers people and objects. carryFIX® avoids these drawbacks!

carryFIX® is...

- versatile
- a handy slope companion
- optionally available with insert card
- a patented product
